***Allowable Subject Matter***

Claims 1-12 are allowed.

Claims 1-12 are allowable over the prior art of record because the prior art of record does not teach or suggest the entire combination of elements of the cable packaging and unwinding device set forth including a spool in which formed two winding areas and at least one stowage area for at least one end of one of the two cable sections; the spool having two lateral flanges and an interior flange, the interior flange defining the two winding areas; each of said two lateral flanges having a notch forming a passage for each cable section from the stowage area. None of the references of the prior art teach or suggest the cable packaging and unwinding device as advanced above and such do not provide the necessary motivation, absent applicant's specification, for modifying the cable packaging and unwinding device in the manner required by the claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William A. Rivera whose telephone number is 571-272-6953. The examiner can normally be reached on Monday to Thursday - 5:30 AM to 4:00 PM.
